

7 Fight Acne

Breakouts are not just a thing of your teenage past: They can happen at any age, even after menopause.

Pro Care: Isolaz is great for treating acne, but it also unclogs pores with its suction.

What can you do to boost your overall complexion? "Isolaz helps with many acne-related problems," says Brandt, adding, "It has a suction to clean out pores and an IPL [intense pulsed light] that kills bacteria. You'll see instant and long-term improvement." Cost: around \$500 per session.
